

DELICATE LASER & SKINCARE
LASER HAIR REDUCTION POST TREATMENT INFORMATION/ INSTRUCTIONS

POST-TREATMENT PRECAUTIONS:

- Treat the area delicately. **DO NOT** rub, scratch, or pick the treated area.
- If the treated area becomes tender or shows signs of infection such as, puss, tenderness, or if you develop a fever; please contact your doctor.
- Avoid swimming, sports, and strenuous exercise for up to 2- 3 days following treatment
- **DO NOT** shave the area if crusting or blistering occurs.
- **DO NOT** use hot water on the treated area immediately following treatment.

POST-TREATMENT CARE INSTRUCTIONS:

- Apply a coat of antibacterial ointment such as Neosporin or Polysporin to the area being treated as necessary to keep the area hydrated
- Keep the area being treated clean.
- Discomfort, such as swelling or redness can be relieved by applying ice.
- It is best to not use makeup for up to 3 days to avoid risk of scarring or hyperpigmentation.
- Please be advised the treated hair will exfoliate or grow out in approximately 2- 3 weeks, and may appear darker and thicker before falling out.
- **DO NOT** use deodorant for up to 3 days, substitute deodorant with a light powder instead to avoid irritation.
- Wear loose fitted clothing to avoid irritation caused by chafing.
- Please moisturize post treatment for at least 24 hours to keep skin hydrated.
- **DO NOT** expose the area treated to the sun, it can cause burning, we advise clients to apply a SPF 30 or more for further protection.
